Claim Rejections—35 U.S.C. 112, First Paragraph:

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 1 and 7 specify a computing unit, an allocation logic, and a frame timing alignment device. The best description of these devices is provided in Fig. 3. But in Fig. 3, these devices are merely represented as rectangles. These descriptions of these devices are inadequate for instructing one skilled in the art on how to make and use the invention as claimed without undue experimentation. Claims 2-6 depend on claim 1 and are therefore similarly rejected.

Response to Arguments:

3. Applicant provides an overview of the claimed invention. But what is relevant is whether the specification provides adequate instruction to enable one skilled in the art to make and use the invention as claimed without undue experimentation. Applicant's argument fails to show that the specification provides adequate instruction to enable one skilled in the art to make and use the invention as claimed without undue experimentation.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
